Easy Do-It –Yourself Installation! Flexi-Tile is a flexible interlocking floor tile that has been developed to provide an “instant” self laying floor surface. Can be used in a wide variety of residential and industrial applications.

The tiles can be “locked” firmly together in a matter of minutes using only a rubber mallet. A complete floor can be laid, or lifted in a short amount of time, without the need for expert labor or adhesives, thereby giving you significant savings in the total costs of a finished floor area.
