WALL - HEAVY DUTY

storeWALL™
HEAVY DUTY

storeWALL Heavy Duty - The original Heavy Duty wall panel for storage and organization.

- Solid core - the color is throughout the panel. No coatings, paints or laminates to damage - no nicks, chips or scratches
- Wood grains - natural random grain just like wood
- Matte finish - a natural finish for a high quality appearance
- Corners - square, not round, edges create a natural looking (not plastic) panel
- Durability - water-proof, weather-proof and sun resistant
- L-slot - Does not trap liquids or debris
- Easy to clean - Wipe clean with a damp cloth or industrial strength cleansers
- Strength - Nearly 3/4" thick, industrial dense polymer can take plenty of abuse
- Accessories - Thousands of conventional slatwall accessories will fit
- Installation - Color coordinated screws for wood studs, metal studs or concrete walls, or HangUps for a completely hidden fastener system, or industrial urethane adhesives
- Seam-N-Splice - Dowel pilot holes for extra strength butt joints
- Tongue & Groove - Invisible joint panels above and below
- Easy to work with - Cut, drill and sand like wood, but without cracking or splinters

See Specifications and Installation Tips for more information.

CATALOG

FASTENERS

storeWALL screws - Color coordinated and universal drive installation.

StoreWALL screws save time. They are color matched to wall panel colors for visual quality. The flat head screw is compatible with wood studs, metal studs, concrete block or poured concrete. It is designed with a #6 head and a #8 body. The head allows wall

panel slot clearance. The larger body is for strength. Screws are rust resistant zinc plated. The multi-head design accommodates a #2 square-drive, Phillips or Unidrive bit system. See Installation Tips for more information.
