Dock Leveler Seal Kits

Pre-packaged kits are designed with a heavy galvanized channel for quick weld installation to help eliminate drafts, dirt and pests from getting in, while keeping debris from falling into the pit (making it excellent for the food industry). Each kit contains two 8' pieces of the galvanized channel, our standard 1" 90° aluminum retainer and an insertion component to meet your specification.

Laminated Dock Bumpers

Our laminated dock bumpers are the answer when vehicle damage to buildings, loading docks and cargo is occurring. Put a stop to it with these heavy-duty bumpers. Each is constructed of tightly sandwiched pads of recycled truck tires, which are shaped and bound by support rods and steel plates or angles. We supply a variety of models and most bumpers ship within two days.
